

Chain Saws Hydraulic

Hydraulic Chain Saws with Chain Brake

Ideal for underwater applications

Saws available with 11", 15", 17", 21", 25", 29" and 40" bar lengths

- Hydraulic power for safe use in wet environments and underwater applications
- Chain brake for stopping chain movement during kickback or repositioning of saw during cutting
- Open center hydraulic system with integrated pressure control valve keeps system pressure constant
- Low maintenance and easy startup – saw chain and motor are automatically oiled by two separate lubricating systems
- Powerful 10 HP motor operates in 12 GPM at 2000 PSI
- Standard with .404 pitch Super Chisel saw chain
- Optional carbide-tipped and ripping saw chain available

ATEX Certified

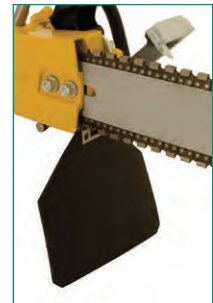

Series 5 1030

Model Number	Cutting Capacity
5 1030 0002	11"
5 1030 0300	15"
5 1030 0010	17"
Contact us	21"
5 1030 0040	25"
5 1030 0060	28"
5 1030 0070	40"

Clamp for cutting up to 27"
Part No. 5 1030 9300

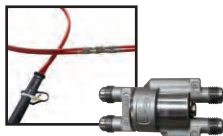

Optional Splash Guard
Part No. 5 1030 9100

Hydraulic Pistol Grip Chain Saws

Ideal for use in utilities, subsea, mines, construction and agriculture

- Up to 6.5 HP, high-torque gear motor
- Open/closed hydraulic system
- 12", 14" and 16" bar lengths available
- Pistol grip with safety trigger lock and insulated handle
- Optional hose swivel to eliminate tangled hoses (at left - P/N 640080)

Model ACH000-12 Pistol Grip Saw	
Motor Power	Up to 6.5 HP Oil Flow: 3-8 GPM @ 2000 PSI
Handle	Pistol Grip
Overall Length	23" (with bar)
Bar Length	12" (14" and 16" optional)
Weight	5.8 lbs.
Hose Connection	3/8" JIC 37°

For 14" bar, order no. ACH000-14
For 16" bar, order no. ACH000-16
