

## **Clamp for Pipe & Sections** **Create a square cut** **with a range of saws**

CP1 Clamp is a standard clamp that easily attaches to a wide range of saws. Self-aligning feet adjust to the form of the workpiece (round, square and angled) to ensure 90° cuts through pipe and profiles. Reduces vibration.

Can accommodate pipe up to 24" OD with extension chain part no. CP1/10 (39-3/8" long).

Ideal for cuts in confined spaces – only 60mm needs to be exposed to fit clamp to workpiece.

An optional power feed kit is available for Cengar saws.

*Note: Specifications subject to change. Refer to Owner's Manual for operating instructions.*
