Repair Manual and Spare Parts List

Repair

General

In general, observe the safety regulations and instructions: refer to the operation manual.

The disassembly and re-assembly is done only according to the technical drawing.

In case of damages, our service is at your disposal.

Disassemble the tool until only, if you are skilled and have the appropriate technical knowledge. Then only disassemble the tool as necessary to repair as required.

Keep contaminants such as dirt and grit away from the internal parts at all times.

Always determine and correct the cause of the problem prior to re-assembly. Further wear and tool failure can result, if the original cause is not corrected.

Spare Parts

Only genuine Spitznas spare parts may be used.

There is no warranty for damages and liability is disclaimed by Spitznas, if non-original spare parts and accessories are used.
