MAB 825 KTS

Versatile machine with adjustable X and Y positioning

Powerful • Reliable

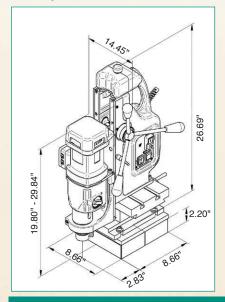

- 16 Amp double-insulated motor
- 4-speed oilbath gearbox for applications requiring high power
- · Designed for continuous use
- Infinitely variable torque control and full-wave control electronics
- Ideal for a wide variety of drilling, boring and slotting applications
- Includes servo-assisted drilling feature to help maintain feed pressure during operation

Drill up to 3-1/8" dia. Tap up to 1-3/16" dia.

- Multi-axis positioning
- Uses annular cutters up to 3-1/8" dia.
- 10" stroke
- Twist drilling capacity up to 1-1/4" dia.
- · Integrated cutting oil reservoir
- · Automatic internal lubrication

Integrated Safety

- Simple, ergonomic arrangement of controls for one-handed operation
- Emergency-off function

REVERSIBLE

Model MAB 825 KTS features multiaxis positioning, allowing the drill to be adjusted up to 4-3/4" forward/ backward and up to 4-3/8" left/right after magnet is adhered to surface. Ideal for job site drilling, boring and slotting applications where dismantling is not feasible.
