

**Data sheet for PLANTEX®-flap discs:**

**Abrasive cloth:**

the abrasive cloth consists of pure zirconium, bound by phenolic resin on pure cotton cloth. The abrasive cloth is completely free of ferrous substances as well as sulphur, chloride, phosphor, lead and mercury.

**Fixing:**

the used polyurethane-glue contains due to it's formula no ferrous substances or ferrous compounds according to EU-Standard No. 76/464 EWG.

**Backing plate:**

the backing plate consists of pure hemp fibres, bound by polypropylene. It is also completely free of glass-fibres and ferrous substances.

This declaration bases on the informations of the suppliers of the raw-material. We assume no liability for changes in the consistence of the used raw-material, which are out of our knowledge and influence!
